### Meeting précis

The Brian-Harcourt meeting topic this year is Glaucoma. A selection of very informative and experienced speakers in the field of glaucoma have confirmed their attendance. Our Guest lecture this year is to be given by Professor John Thygesen, an internationally recognised glaucoma expert who helped to formulate the European Glaucoma Society Guidelines. A carefully selected panel of UK speakers will focus on a range of glaucoma topics, including lectures on glaucoma surgery and normal tension glaucoma. Presentations and discussion of our difficult glaucoma cases will follow.

The meeting is aimed at all ophthalmologists, juniors and consultants alike, and the setting of Hazlewood castle promises again to provide a convivial atmosphere to listen, learn and debate about the key issues in glaucoma management today.
